(From 5<sup>th</sup> Feb 2013 to 9<sup>th</sup> Feb 2013)

Organized by  
Department of Information Technology  
College of Engineering & Technology  
Bhubaneswar

Sponsored by  
TEQIP-II

College of Engineering & Technology  
Biju Patanaik University of Technology  
Bhubaneswar 751003, Odisha  
Website: [cet.edu.in](http://cet.edu.in)

## **INVITATION TO WMWA**

The workshop WMWA-13 is intended for Faculty members, Research scholars, Industry participants and Students to enlighten their knowledge in the recent trends in developing mobile environment as well as to provide hands on experience in mobile application development. IT department, CET extends a hearty invitation to all to attend the workshop.

## **COLLEGE OF ENGINEERING AND TECHNOLOGY**

College of Engineering and Technology (CET), was established in 1981 to meet the growing technical man power need in the State. It has become a constituent college of Biju Pattnaik University of Technology, Rourkela with effect from 09.07.2002 as per section-37(1) of BPUT Act, 2002. It is the premier institute in Orissa attracting top students from the state. Today CET has established its reputation for its excellence in teaching combined with professional development of its students.

## **DEPARTMENT OF INFORMATION TECHNOLOGY**

Since establishment of Information Technology Department in 2001, the department has shown constant pursuit of excellence in both B.Tech & M.Tech. The department having cohesive team of highly qualified, professionally competent, well recognized faculty endeavors to produce IT experts to fulfill the requirement in IT Sectors. Latest developments in the field of IT, such as Bio-informatics, J2EE, Artificial Intelligence

and communications are offered as electives to students. The department produces exceptional talents along with giving directions to budding talents.

## **WORKSHOP OBJECTIVES**

The prime objective of the Workshop is to enlighten the future of the Web on the Mobile platform. The Web is evolving into an application medium, one of rich, immersive environments. Most people would agree that the state of the Web on the mobile phone is far from this point, but it is catching up fast. Web applications that are suited for the needs of mobile devices and mobile users, based on existing Web standards, will play an important role in how the Web ecosystem evolves to encompass the mobile platform.

## **PAPER PRESENTATIONS**

Selected papers will be presented by researchers to give an insight of the future of the Web on the Mobile platform.

## **WORKSHOP THEMES**

The Workshop will be focused on the various directions of Recent Trends in Mobile Web Services and Hands on experiences in latest trends in Growing Mobile Applications. Topics of interest includes but not limited to the following subjects :

- Android Training
- Phone Training
- Mobile Web Services
- Mobile Cloud Computing
- Mobile Web Security
- Mobile Databases
- Future of Mobile Application
